

PROMET U ZRAČNIM LUKAMA U SVIBNJU 2020.

TRAFFIC IN AIRPORTS MAY 2020

U svibnju 2020. hrvatske zračne luke zabilježile su 19 315 putnika ili 98,3% manje nego u istome mjesecu prošle godine, kada je ostvaren promet od 1 115 680 putnika.

Okolnosti prouzročene širenjem bolesti COVID-19 izravno su utjecale na pad prometa putnika u hrvatskim zračnim lukama.

Najveći promet putnika ostvarila je zračna luka Zagreb s 13 tisuća putnika (pad od 95,7% u odnosu na svibanj 2019., kada je prevezeno 309 tisuća putnika), slijedi zračna luka Dubrovnik s 4 tisuće putnika (pad od 98,8% u odnosu na svibanj 2019., kada je prevezeno 313 tisuća putnika) i zračna luka Split s 2 tisuće putnika (pad od 99,2% u odnosu na svibanj 2019., kada je prevezeno 308 tisuća putnika).

Najznačniji međunarodni putnički promet ostvaren je sa zračnim lukama Njemačke, 8 tisuća putnika, što je pad od 96,8% u odnosu na isto razdoblje prošle godine.

Ukupan broj slijetanja i polijetanja zrakoplova u zračnim lukama u svibnju 2020. iznosio je 1 123, što je pad od 91,2% u usporedbi sa svibnjem 2019., kada je broj slijetanja i polijetanja iznosio 12 832.

Ukupan promet tereta u zračnim lukama u svibnju 2020. iznosio je 452 tone, što je pad od 62,5% u usporedbi sa svibnjem 2019., kada je promet tereta iznosio 1 204 tone.

The total traffic of passengers in airports amounted to 19 315 in May 2020, which was 98.3% less than in the same month of the previous year, when the total traffic of passengers amounted to 1 115 680.

The circumstances brought about by the COVID-19 pandemic have directly influenced the decrease in the traffic of passengers in Croatian airports.

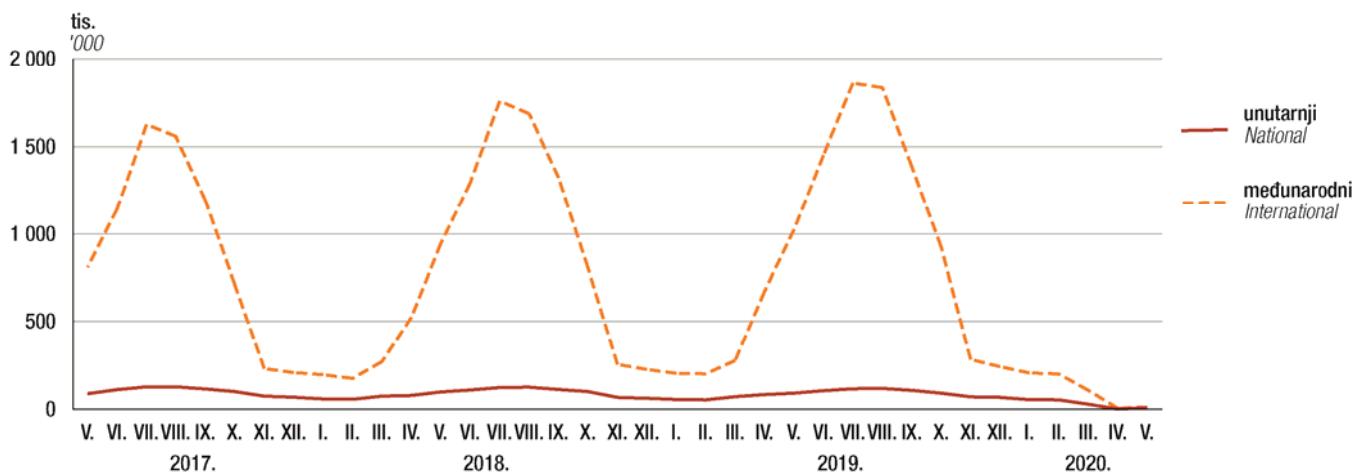

The largest traffic of passengers was recorded in the Zagreb Airport with 13 thousand passengers (a decrease of 95.7% compared to May 2019, when the traffic of passengers amounted to 309 thousand), followed by the Dubrovnik Airport with 4 thousand passengers (a decrease of 98.8% compared to May 2019, when the traffic of passengers amounted to 313 thousand) and the Split Airport with 2 thousand passengers (a decrease of 99.2% compared to May 2019, when the traffic of passengers amounted to 308 thousand).

The most significant international traffic was realised with German airports, 8 thousand passengers, which was a decrease of 96.8% compared to the same period in the previous year.

The total number of landings and take-offs in airports in May 2020 amounted to 1 123 movements, which was 91.2% less than in May 2019, when the total number of landings and take-offs in airports amounted to 12 832 movements.

The total traffic of freight in airports in May 2020 amounted to 452 tonnes, which was a decrease of 62.5% compared to May 2019, when the total traffic of freight in airports amounted to 1 204 tonnes.

METODOLOŠKA OBJAŠNJENJA

Izvori i metode prikupljanja podataka

Kumulativni podatak nije uvijek jednak zbroju pojedinačnih mjesecnih rezultata zbog zaokruživanja na tisuće.

Svrha istraživanja jest prikupiti podatke o broju svih operacija zrakoplova, prometu putnika i tereta na komercijalnim operacijama u zračnim lukama te u pristaništima Republike Hrvatske.

Jedinice promatranja i izvještajne jedinice jesu zračne luke u Republici Hrvatskoj. Podaci su prikupljeni u obliku elektroničkih setova i na obrascu PZ/M-21.

Obuhvat

Podaci o zračnom prometu (ukupne operacije zrakoplova, promet putnika i tereta u zračnim lukama) odnose se na rad zračnih luka Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač te zračnog pristaništa Mali Lošinj.

NOTES ON METHODOLOGY

Sources and methods of data collection

Cumulative data are not always equal to the sum of individual monthly results due to the rounding of numbers to the nearest thousand.

The purpose of the survey is to collect data on the number of all aircraft movements and the traffic of passengers and freight on commercial operations in airports and air landing places of the Republic of Croatia.

The observation units and reporting units are airports in the Republic of Croatia. Data are collected in the form of electronic datasets and on the PZ/M-21 form.

Coverage

The data on air traffic (total aircraft movements, traffic of passengers and freight in airports) relate to the activities of the airports of Zagreb, Split, Dubrovnik, Pula, Rijeka, Zadar, Osijek, Brač and the air landing place of Mali Lošinj.

Broj ukupnih operacija zrakoplova u zračnim lukama odnosi se na broj svih (komercijalnih i nekomercijalnih) operacija slijetanja i polijetanja zrakoplova, osim državnih letova (vojska, carina, policija).

Promet putnika u zračnim lukama obuhvaća broj otputovalih i doputovalih putnika na komercijalnim operacijama. Isključeni su putnici u direktnom tranzitu. Putnici u direktnom tranzitu jesu putnici koji, nakon kratkog zaustavljanja, nastavljaju svoje putovanje istim zrakoplovom na letu s istim brojem leta kao let s kojega su stigli.

Promet tereta u zračnim lukama odnosi se na utovarenu i istovarenu robu i poštu na komercijalnim operacijama, osim prtljage putnika. Isključen je teret u direktnom tranzitu.

The number of total aircraft movements in airports refers to the number of all (commercial and non-commercial) operations of landing and taking-off of an aircraft, except state flights (military, customs, police).

Traffic of passengers in airports includes the number of passengers who have departed or arrived on commercial operations. Passengers in direct transit are excluded. Direct transit passengers are passengers who, after a short stop, continue their journey on the same aircraft on a flight having the same flight number as the flight on which they arrived.

Traffic of freight in airports refers to the loaded and unloaded goods and mail on commercial operations other than the baggage of passengers. The freight in direct transit is excluded.
